Download the torrent from KickassTorrents The stills from this movie that we have seen look promising and we hope it will be a good one. Here is a summary of story: Plot: Haxan has been cursed by the Devil to live for all eternity without rest. She is condemned to seek out new victims and torture them for her own amusement. When she eventually encounters a family, she decides to take their daughter so that her mother can watch her die in agony before following suit. However, when Haxan kidnaps the girl, nothing goes according to plan...

To celebrate the start of the new season, American TV network SyFy has released what they are calling a 'Survival Kit' - a collection of daily tasks/games designed to help viewers get in the spirit of the show. There are five different quests on offer, which must be completed by midnight each day. These include:

The following episode from Season 1 is on SyFy on 31 October at 22:00 ET.

The following episodes from Season 2 are on SyFy on 1 November at 22:00 ET.

The following episodes from Season 3 are on SyFy on 2 November at 22:00 ET.

SyFy has released what they're calling a 'Survival Kit' - a collection of daily tasks/games designed to help viewers get in the spirit of the show. There are five different quests on offer, which must be completed by midnight each day. These include:

In this weekly video series, cast members from Syfy's hit show discuss various topics relevant to terrorism and survival related occasions with prominent figures from the intelligence field and with foreign-policy experts. Actor/Producer Chad Michael Collins hosts the series in which he dives into topical issues that could affect our everyday lives. He is joined by the series' cast-members each week, who discuss their views on topics ranging from terrorism, to civil liberties, to possible government conspiracies. Each episode concludes with a question and answer session with fans of the show who call in to ask questions about how they can be better prepared for life's unexpected events. The first season contains ten episodes.

Title: Who's Watching You?: How Technology Is Invading Your Privacy - Syfy Description: Technology is an amazing tool that has given humankind extraordinary powers. But it's also a double-edged sword. Our digital lives are riddled with danger. In this original documentary, uncover the new battlefield of our age: cyber warfare.

Title: How to Survive a Sharknado and Other Extreme Meteorological Events - Syfy Description: Sharknadoes! Volcanic eruptions! Tornados! These aren't just movies anymore. These extreme meteorological events can and do happen in real life and they're more dangerous than you probably realize. From tornados to thunderstorms, learn the science behind freak weather events and how they can kill you. This episode is also available on Syfy On Demand: http://www.syfyondemand.
