I was FORCED to buy this game and play it for 111 minutes.. it seems this engine is dead ,wasted my money dont buy. Pros

- + Very addictive - frustrating and entertaining
- + Beautifully put-together
- + Well-programmed
- + Great visuals
- + Great voice acting (discount Cave Johnson <3 )
- + Brilliant music and SFX
- + Keeps you on your toes
- + Dat level editor, doe!

#### Cons

- Controls are a little counterintuitive at times
- Start cutscene is a bit glitchy
- Doesn't play so well on a sub-optimal computer - needs optimising
- The difficulty curve is pretty steep (not a con, just means the player has to learn quickly)

Overall, a fantastic, entertaining game which has clearly had a lot of time and effort put into it, and one I imagine I will play a heck of a lot more in the future,

My score: 7/10. I LOVE THES GAME. Questerium is a pretty good hidden object / puzzle game. The thing that makes it most enjoyable, however, is the cheesy, over the top acting. I found myself laughing out loud. I kept expecting the guys from MST3K to show up and start heckling the game. The puzzles run the gamut from easy to difficult. Beware, some of the hidden object puzzles have bad clues where the noun it gives you for an object to find is not really what that object is. I missed the "no hints" achievement because I had to use a hint to find one of them. On the whole, however, this is a fun game. Play it if you want a good chuckle.

. I thought my review took, but maybe not. In any case, if you're wanting something that's closer to the SNES JRPG feel, this game's for you. Sure, it has the RPG Maker feel to it, but JW has crafted an excellent game here with a great story, excellent side quests, some fun and some frustrating puzzles.

---

best game ive ever played. Why isn't there any multiplayer games and no AI.. You said you would make AI in 2016 and its 2018 now, some people still play this.. :( Best escape room game so far. Nice and clean graphics, good controls. Make sure you have bigger room scale than the minimum, 1st room is ok but in the second one you need about 2,5m x 3m space. Cleared the 2nd room ok, very solid experience and fun to solve. 1st didnt start off too well, have to give it a new try. Waiting for new rooms on this one!. Cannot pass the game: spader doesnt give me his flask and I cannot cook poison to save person because of broken scripts

...why we should solve every puzzle twice?. Dont buy this! This Clicker is terrible.

No Option Menu. No option to disable Sound = RIP Headphone Users. No Window mode. You need to press Alt+F4 to end the Game.

Better you play one of the free2play Clickers. They are much better.. I've got mixed feelings about Shadows, still wading into the espionage system and the new faction quest, but the inability to generate science (having to buy it with gold instead) is more irritating than immersive. Feels more like an artificial constraint for game balance and distinctiveness rather than something the faction needed. It's still a fresh and wonderful game overall, though.

I don't know if it's worth the asking price, it seems like a lot of money for the small amount of content -- it's a bit like the pricing of a Civilization 5 or Crusader Kings 2 DLC, too expensive unless you're a rabid fan. Which I am.. This is a fun casual game, but don't expect great depth from it. The game has played fine so far without using cash to purchase rewards. The game plays well for the 5 dollar price.. The 4th installment in the kickass series of DMC and definatly the best of the series on PC! Strap yourself in and prepare your body for some serious CUHRAYZEE! If you spend the hours in here the combat system will reward you greatly for your efforts!. Really nice game! I love the vibe. Really nice concept and art work and that's what is the most important for me - other stuff can be still polished during early access.

Tutorial would be useful, but I managed to get the rules pretty fast.

Also - good work with the music.. \u2605\u2605\u2605\u2730\u2730 3V5

TLDR;

A great fun little game, especially great when playing with mates. Simple, yet extremely fun. And hey, if you're a fan of big boobs, look no further ;) Looking forward to seeing how this game develops!

\u263aPros

- Funny, fast-paced and entertaining. Got some mates over? Get this one on and everyone will be laughing and cheering.
- Graphics are actually fairly good, and drinking actually makes you feel a bit wobbly and the double vision is a laugh.
- Boobs.

\u2639Cons

- Simple, but this is also a Pro. It's not trying to be a game with a 1293219 hour long storyline. However this does reduce the replayability value.
- Personally I didn't like the fact that the grip(side) button was used to pick up the drinks and the pistol, probably because every other game is using the trigger for object interaction. Not a big deal, as you get used to it almost immediately.
- Looking forward to future maps, but at the moment it is VERY limited.

I'll update this review regularly. :)
